(R) Rectified size - square edge with bevel. Swatch colours may vary from original. Samples should be requested. *Special Anti-Slip finish can be provided on request. The treatment consists of the additional application of a special glaze formula, fixed using a new firing process that leaves the surface slightly matt, maintaining its anti-slip properties over time. We recommend checking available calibres when placing an order. Work size tolerances are — Calibre 0: 202.1 x 202.1mm to 203.5 x 203.5mm / 202.1 x 100.4mm to 203.5 x 100.4mm and Calibre 1: 203.6 x 203.6mm to 205 x 205mm / 203.6 x 101.2mm to 205 x 101.2mm
